

## Rubric

Criteria	Levels			
	4 (Exceeds Expectations)	3 (Meets Expectations)	2 (Approaches Expectations)	1 (Does Not Meet Expectations)
Matplotlib and CSV	The Jupyter notebook file imports the libraries necessary for the project.	NA	NA	The Jupyter notebook file does not import the libraries necessary for the project.
Implementation of 2D visualization	The 2D grid appears with data plotted on the graph and the visualization includes custom color or a title.	The 2D grid appears with data plotted on the graph.	The 2D grid appears, but no data plots on the graph.	There is no 2D grid present on the project output.
Implementation of 3D visualization	The 3D grid appears with the correct data plotted on the graph. The grid is rotatable. There is a title on the graph.	The 3D grid appears with the correct data plotted on the graph.	The 3D grid appears with no data plotted on the graph.	There is no 3D grid present on the project output.
